

Dear Parents/Caregivers

To further improve our student outcomes in Mathematics we are implementing a research-based Maths Program from Scholastic: PR1ME. **PR1ME Mathematics** is a world-class program based on the effective teaching and learning practices of Singapore, Republic of Korea and Hong Kong - consistent top performers in international studies. This program teaches essential concepts while developing critical thinking, communication, collaboration, creativity, and confidence in Maths.

A trial has been held across the school in Semester 2, 2023 with pleasing results and a school wide decision has been made to implement this program from Pre-Primary to Year 6 in 2024.

InitialLit is a school reading program that focuses on the teaching of synthetic phonics alongside a rich literature and vocabulary component. The school purchases the InitialLit Program for all students PP-Year 2 however Year 1 students will benefit greatly in this program from having access to the additional Workbook.

As part of Booklist requirements for 2023, each student is required to purchase the following workbooks.

	Book requirements
Pre-Primary	Prime Maths Core Book A & B Foundation \$27.50
Year 1	Prime Maths Core Book A & B Year 1 \$33.60 InitialLit Workbook \$10
Year 2	Prime Maths Core Book A & B Year 2 \$33.60
Year 3	Prime Maths Core Book A & B Year 3 \$33.60
Year 4	Prime Maths Core Book A & B Year 4 \$33.60
Year 5	Prime Maths Core Book A & B Year 5 \$33.60
Year 6	Prime Maths Core Book A & B Year 6 \$33.60

To ensure we can begin these high-quality programs at the beginning of 2024, this amount is kindly requested to be paid to the front office as soon as possible in order for students to receive their Maths workbooks in Week 1, Term 1, 2024.

Regards,

Toni Whitbread

Deputy Principal- Maths Curriculum area
